Work History

Full Stack Engineer

Enverus, US (Jul 2021 - Present)

- Spearheaded the implementation of new features and actively participated in architectural decisions for Mineralsoft, a cutting-edge minerals management software.
- Using Python/Django and PostgreSQL DB for the backend and JS/Typescript/React for the frontend.

Full Stack Engineer

Cuddly AF, US (Mar 2021 - Jul 2021)

- Developed a user-friendly dashboard app that enables creating fundraising campaigns for animals in need.
- Built the app from scratch using React and integrated Node.js/PHP seamlessly.

Full Stack Engineer

Lululemon, CA (Nov 2019 - Mar 2021)

- Played a key role in the checkout team, employing the Next.JS framework and writing GraphQL queries/mutations.
- Successfully maintained the gateway between frontend and multiple internal API services.

Full Stack Engineer

Ordergroove, US (Jul 2019 - Nov 2019)

- Contributed to the development of backend (Python/Django) client-specific customizations in the integrations team.
- Assumed the technical lead role in frontend development using AngularJS, React, and Vanilla JS for seamless integrations.

Full Stack Engineer

RWS, UK (Jan 2016 - Jul 2019)

- Web Application development using .NET C# and created single-page apps with ES6, React, AngularJS, and Ember.

Full Stack Engineer

Matec SA, AR (Jun 2015 - Jan 2016)

- Developed web apps with PHP, MySQL, JS, CSS3, and HTML5, including single-page apps using React and AngularJS.

Freelancer Web Developer

Freelancer, AR (Dec 2011 - Jun 2015)

- Custom software development with PHP, MySQL, JS, CSS3, and HTML5, using frameworks like CakePHP.

Web Developer

Cenys Networks, ES (Dec 2007 - Nov 2012)

- Developed numerous websites using PHP, MySQL, and jQuery.
- Successfully designed and created an email marketing platform from scratch, leading a dedicated team in its development.

Web Developer

4R Soluciones, AR (Jul 2006 - Dec 2007)

- First experience developing webapps using PHP, MySQL, jQuery and Vanilla JS.
- Developed multiple websites.
- Contributed in the development of the content management app used for the client's websites.
